

Rustic Angel Interiors - Roman Blind Price Guide

You will find below 2 different prices guides for our roman blinds, one with our standard lining and one with blackout lining. All blind prices include your choice of fabric, covered wooden baton, cleat and acorn. They will be delivered to your door strung (either left or right) and will be ready for hanging.

The first price guide includes cream sateen lining (this is our standard lining and will allow light to penetrate the room) and the second price guide includes blackout lining (which will make the room much darker). You will need to measure your window and look at the figure above your chosen width and drop to get the correct price, i.e., if you blind measures 700mm wide x 1000mm drop the price will be £109. **If you require your roman blind to have interlining please give the office a call on 020 8239 1134.**

Please note that blinds wider than 1370mm wide will have an even join down either side of the blind.

To download our detailed Measuring Guide visit our website at:

2200mm	£154	£166	£178	£210	£218	£226

If you require pom poms along the bottom of your blind please ring the office and we will advise the extra cost involved.

This is a price guide only – all enquiries will receive a written estimate. We are more than happy to make up roman blinds using your own fabric – please call the office on 020 8239 1134 for details.

It's vitally important that you measure your window very carefully to ensure your curtains or blinds fit correctly. If you are in any doubt, please check your measurements again. By supplying these measurements to Rustic Angels you take full responsibility for the finished size of your curtains or blinds.
